

Kasia Borzecka

UX / UI / Graphic Designer

EXPERIENCE

Digital Designer | Mtc Media,
Edinburgh, UK
January 2020 – Present

I design user-centred digital experiences and responsive websites for a diverse range of clients, from initial discovery through to design, development and testing. My work focuses on understanding user needs, solving problems and creating intuitive, accessible and visually engaging experiences.

UI & Graphic Designer | Shore Group, In Home Displays, Edinburgh, UK
June 2017 – December 2019

At Shore Group and its sister company, In Home Displays, I was responsible for designing a variety of marketing materials, including brochures, product renders, photography, labels, packaging, and instructions for medical and pharmaceutical devices. Additionally, I contributed to the design of user interfaces for medical and energy usage applications.

Product Designer | Ergo Design,
Krakow, Poland
July 2015 – January 2016

As a Product Designer I was working on various type of products with a main focus on ergonomics and user experience.

Product Designer - Intern | Un-Real Studio,
Florence, Italy
July 2014 – September 2014

During my internship I was working on assembly on medical and military devices.
